Production of

Levi's

HAMEEM GROUP

January 4, 2026

Levi’s Pathway from May 2024 to Dec 2025

Phase 1: Production Mar '24 – Feb '25)

Brand: Levi’s Signature | **Lines:** 6 Production Lines.
Result: Stable performance and smooth learning curve.
Efficiency: 39.91

Phase 2: Production Mar '25 – June '25

Expansion: Expanded to **20 lines by feb’25** for **Levi's Red Tab (Men's & Women's)**.
Complexity: Handled **100+ different POs/week** with small quantities as low as 50–200 pcs.
The Struggle:

- **Cutting:** Difficulty with diverse inseam sizes and country-specific specs.
- **Washing & Finishing:** Traceability failure led to PO mix-ups and high variance.
- **Impact:** Surge in **Short Shipments** and costly **Air Shipments**.
- **Efficiency: 42.77%**

Phase 3: Production July '25 – Present

Traceability Fix: Introduced **CRD-wise Colored Poly** bags to eliminate washing mix-ups.
Digital Transformation: Implemented **QR Code Scanning Software** for real-time garment tracking.
Outcome:

- **Efficiency:** Reached a consistent average of **60%+.**
- **Accuracy:** Short shipments mostly controlled; Air shipments eliminated.

Phase 4: Expansion

Capacity Expansion: Now will be using 28 Production Lines instead of existing 21 production lines.
Effective Date: February 01, 2026
Setup: 21 Existing + 5 Kontoor lines + 2 New lines= 28 lines.

Levi's Year-on-Year (YoY) Performance
Cut-to-Shipment % (2024 - 2025)

Month	2024 Signature Status (%)	2025 Sig, RT, RTM Status (%)

Expectation

- Average Efficiency per month required from 28 lines : 85%

- Cut to ship ratio needed : 98%

- Profit needed to retain : 15%

- No short shipment every week and on-time delivery.

- Washing plant to organize to support Levi's shipment.
